CheckPoint360 · Proposal to share

Hand over the upkeep of your range.

€990 for one month, no VAT. One range, one language, up to two successive batches. Each batch covers one approved rule, up to four references and two existing destinations.

Maison Sillage · fictional demonstration, December 2026

1 Dec
We request the selected references and approved unit contents. Your lead names the two destinations and approves the calendar.

4 Dec · Batch 1
After approval of the standalone bottle, CP360 prepares its buyer row and sales answer, then checks that neither includes the cards.

11 Dec · Batch 2
CP360 checks the bottle and 30 cards against the approved gift set contents. The EAN is missing. CP360 requests it from the brand and the field stays blank.

18 Dec · Handover
Your team receives the matrix and editable answers. It chooses when to send them to the retailer once all required fields are complete.

Scope and payment

The fee reserves the agreed capacity. Jérémie confirms the sources, dates and availability before signature. Standalone first month, €495 after signature and €495 within 14 days of handover. The next month is agreed in writing. Additional destinations, languages and volume are priced before commitment.

Jérémie owns the handover and corrects in-scope errors. You keep the files. Handover uses your tools; no third-party cost in this example. Your dates and total are confirmed in writing before signature.
