CheckPoint360

What should you hand over?

One customer journey is broken

Already have a site with a broken contact flow? Consider the €190 repair. €790 covers four new pages on compatible hosting. If enquiries already arrive correctly, keep your site.

290 € | A buyer wants their own spreadsheet.

Start with the retailer’s empty template, your prices and your photo folder. CP360 fills their columns, matches the six images and flags any missing facts. If the retailer already accepts your price list and images as supplied, send those directly.

249 € | My customer is unsure which refill fits.

Share your instructions and the recurring question. CP360 checks three situations, installs the answer on a compatible page and gives your support team the matching reply. If customers already find the correct answer before checkout, keep your page.

390 € | My studio has signed off the design.

Your studio keeps creative control. Send the approved artwork and printer templates. CP360 prepares three variants, checks the files and handles one technical revision. You approve the printer’s proof. If the printer has already accepted all three files, release them for production.

Hand over the work. Get a finished result.

We recommend the smallest complete mandate. CP360 prepares, adapts, installs the agreed work and handles the included revision. You approve the facts and the result.

No mandatory subscription. Existing materials reused. Destination, total, date and any third-party costs confirmed before agreement. 50% deposit; balance within 14 days of complete delivery.

Retail buyer listing — 290 €

Prepare the complete buyer file, matched prices and images for six products.

We complete your CSV or Excel buyer template, preserve its layout, match six references and photos, and check the order form. Upload to a buyer portal is not included unless agreed.

Prepare a counteroffer — 190 €

Compare two trading terms using your costs and prepare the counterproposal.

Two scenarios using supplied costs: verified figures, a written counter-offer and a reusable calculator. You decide the terms; CP360 prepares the response.

Corporate gift order — 290 €

Assemble contents, two quantities, packaging and shipping into a complete corporate offer.

One composition and two quantities: prices, packaging and transport reconciled in a finished offer and calculator. You confirm stock and date; CP360 finishes the documents.

Follow up a trade show — 350 €

Sort up to ten existing enquiries, prepare each reply and its attachments, and organise next actions.

Ten received enquiries: individual replies with the right attachments in ready-to-open messages. Sending requires your approval; no prospecting or paid sending licence included.

Launch a collection — 490 €

Prepare three product listings from your documents, integrate the collection and announcement, and test the cart.

Three new products and one collection on an existing WooCommerce shop: copy, message, integration and checks. Drafts followed by publication after approval; payment and shipping already operational.

Launch a gift set — 350 €

Calculate contents and stock to reserve, install the preassembled gift listing and test its purchase.

One fixed-quantity gift set on WooCommerce: composition, price, reserved stock and product page installed by CP360. Component stock is reserved once; no ongoing synchronisation, paid bundle app or physical stock handling.

Size a first production run — 249 €

Compare two production runs: cash commitment, required sales and units without firm orders.

Two quantities based on the manufacturer quote and your costs: commitment, thresholds and decision with a reusable calculator. No invented sales forecast or production order.

Prepare a product shoot — 190 €

Match products, variants and stock; prepare the shot list your studio can use.

One shoot, ten references and three views per reference: shot list, references, output formats and instructions assembled. The photography itself is outside this mandate.

Build a brand website — 790 €

Organise existing content, build four pages, install them on compatible hosting and test contact.

Four pages using supplied content, installed on compatible existing hosting. CP360 adapts content, completes contact handling and checks receipt. A domain, new hosting and migration are excluded and checked before agreement.

Put your range on sale — 990 €

Prepare and integrate eight simple products into two WooCommerce collections, then check the existing order journey.

Eight simple products and two collections on an operational WooCommerce shop. CP360 adapts and integrates copy, images, prices and collections, then checks the existing purchase flow. Payment setup, migration and complex custom variants are excluded.

Fix a website journey — 190 €

Reproduce a broken journey, make up to three fixes and test enquiry receipt.

One journey and up to three text, button or form fixes on a standard WordPress page or accessible files. CP360 fixes, installs and tests. Rebuilding a broken payment system or proprietary app is outside this small mandate.

Answer a pre-purchase question — 249 €

Read your instructions, address one question in three cases, integrate the answer and prepare the support reply.

One question and three cases: responses integrated into a standard WordPress page or accessible site files. CP360 installs the agreed block and checks it. Proprietary page builders require a compatibility check before agreement.

Prepare printer-ready artwork — 390 €

Adapt an approved design to three products, export the files and handle one printer technical review.

Three references: approved artwork adapted to supplied printer templates, PDFs exported and sizes checked, including one technical revision. Printing, transport and manufacturer approval are separate.

Update product instructions — 190 €

Correct one approved statement in three editable sources, check occurrences and complete exports.

One approved wording change in three editable files: CP360 preserves styles, replaces the text and exports PDFs. Rebuilding a scanned document is outside this price.

Design a retail display — 350 €

Design a display and a product card using existing brand assets and templates, and deliver production files.

One display and one product card: text, visuals and sizes adapted to the two supplied templates, with editable sources and PDFs. Manufacturing and physical installation are excluded.

Help a shopper choose — 290 €

Compare up to four products for one buying question; make the customer and staff guides.

One purchase question and four products: a finished shopper aid and matching staff guide, ready to view and print. The brand approves the facts and places the material in store.

Equip several shops — 490 €

Adapt a shared advice base to two local ranges and deliver the correct store-specific materials.

Two locations and six references each: shared material adapted to local ranges and instructions. Each team receives a finished guide; no mandatory on-site training.

Prepare a pop-up sale — 290 €

Prepare prices, a poster, stock tracking and setup instructions for six products.

One stand and six references: prices, poster, labels, stock tracker and assembly order completed. Manufacturing and physical setup are excluded.

Run a promotion — 249 €

Prepare the announcement and schedule the promotional price start and end in your shop.

One existing WooCommerce product: announcement, price and dates configured using native features, then read back and checked. Return to normal price scheduled; no extra app or permanent monitoring.

Open event bookings — 290 €

Prepare the invitation and booking for one date, configure up to four slots and test capacity.

One date and up to four slots: a booking module installed on compatible hosting, on-screen confirmation, private records and cancellation that releases capacity. CP360 configures and installs it. Online payment and automatic email are not included.

Supply a press desk — 249 €

Adapt your presentation to a specific request, package two images, credits and requested formats.

One request, up to 500 words and two supplied visuals: adapted copy, requested image sizes and credits. CP360 handles conversions; the brand approves rights. No hidden photo shoot or rights purchase.

Fix a catalogue import — 1260 €

Prepare the correction selection for approval, correct the CSV, and deliver differences and exceptions.

The EUR 1,260 mandate is unchanged: original, selection for approval, corrected CSV, differences and exceptions. One rule, language and field; twenty references within two hundred rows. Account import is separate from file correction.
